## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4/8, 4/9, 4/10, and 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Akihisa (JP 2000-187916). As per claim 8, 9 and 10, figure 1 of Akihisa, for example, shows a disk drive including a chassis case 1. Figures 3 and 4 also shows a disk tray 10 that supports a disk-shaped recording medium 20 and is movable between a loading position in the chassis case 1 and an unloading position outside of the chassis case 1. Figures 3 and 4 also show a pressing arrangement 15 set between the chassis case 1 and the disk tray 10 to generate a pressing force for pressing the disk tray 10 in the direction perpendicular to the recording medium 20 by using the chassis case 1 as a reaction point when loading the disk tray 10. The pressing arrangement 15 presses the disk tray 10 in the direction perpendicular to the recording medium 20 when the disk tray 10 is in the loading position.

As per claim 4, figures 3 and 4 of Akihisa show the pressing arrangement 15 does not generate the pressing force against the disk tray 10 when the disk tray 10 is located at the unloading position while it generates the pressing force against the disk tray 10 when it is located at the unloading position.

As per claim 7, Akihisa shows in figure 3 the disk tray 10 including a main body portion having a dimensional shape from which a part of the recording medium 20 protrudes and the side

Art Unit: 2652

arm portion 14 extending along the recording medium 20 protruded from the main body portion. The chassis case 1 includes the recording medium 20 protruding from the main body portion of the disk tray 10 and a convex housing portion 13 for housing the side arm portion 14 of the disk tray 10. The pressing arrangement 15 is set between the side arm portion 14 of the disk tray 10 and the housing convex portion 13 of the chassis case 1.

***Allowable Subject Matter***

2. Claims 1, 2/1 and 4/1 are allowable over the prior art.
3. Claims 2/8, 2/9 and 2/10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
